With Time GROWS
Pride...

With Time Grows Pride . . .

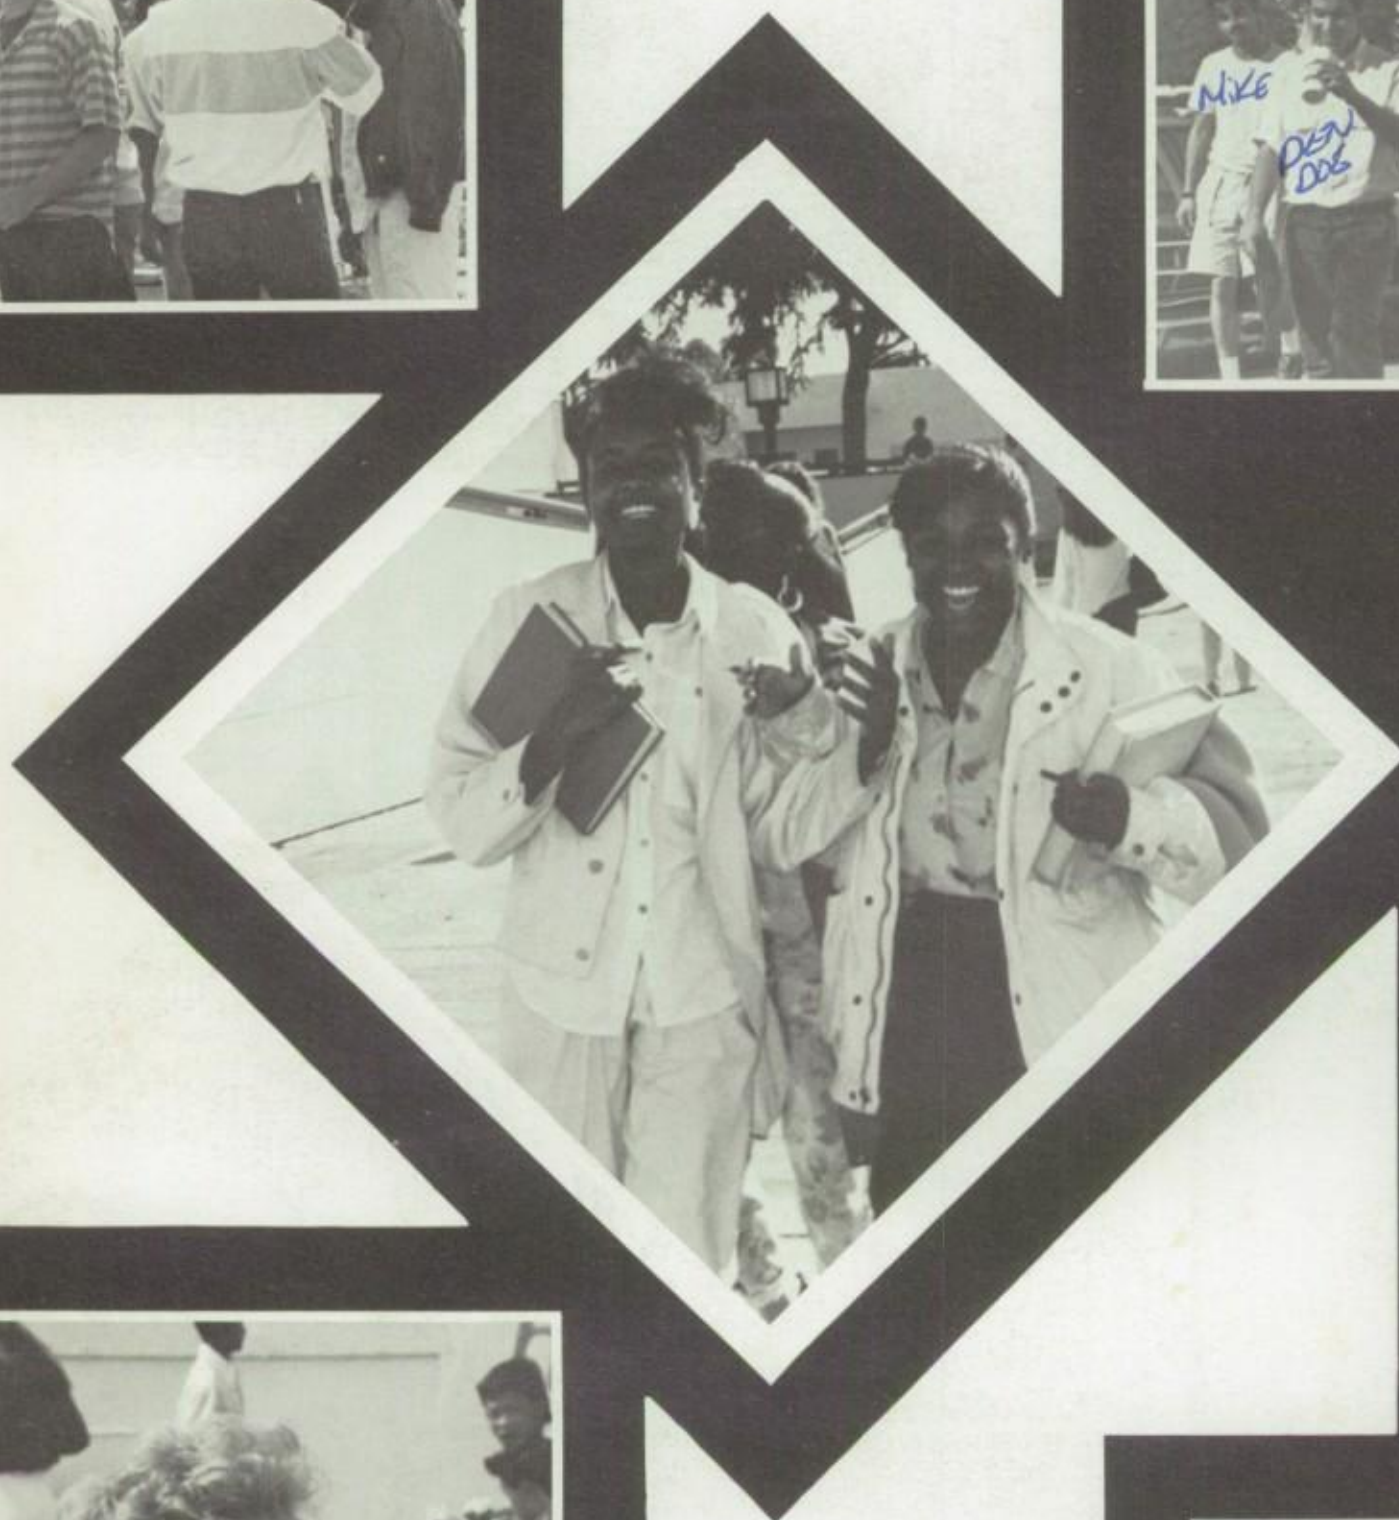

All students at Hoover High School can be proud of their achievements.

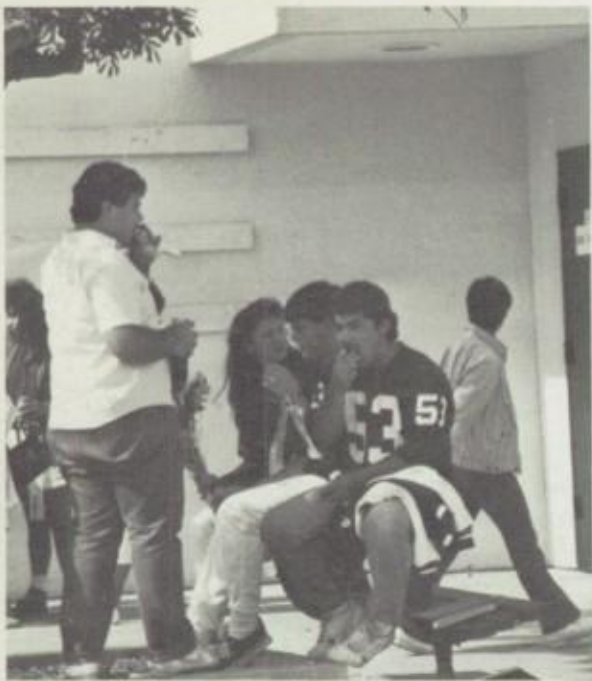

During our years at Hoover we have seen the school and its students change. We have watched our spirits rise, and we have seen our campus grow. We have also grown older through the years spent here and with time comes wisdom and with wisdom comes pride.

Each and everyone of us are special people. We have discovered our special abilities and have accomplished many of our goals. We have built a foundation and composed strong confidence within ourselves. Now we are ready to take that step out into the future.

The Senior students of Hoover are proud to be examples for the underclassmen. We hope that our time at Hoover will leave lasting impressions, and that our experiences will be shared. We will remember our fun times and we will look back into the past with hearts filled with pride.

ECIVRES is Hoover's Senior Service Society, who together work to aid our school and community. They have helped renovate the teacher's lounge and the principal's conference room. They have been a valuable part of the SEEK program by helping new students and parents become acquainted with our campus. They helped KPBS raise money in their telethons. They hosted a luncheon with business owners of the community to show that Hoover is an excellent institution to do business with.

Alicia Martinez

Jenny Kolcun

ECIVRES consists of ten senior boys and ten senior girls, who are chosen by teachers and administration at the end of their junior year. They must demonstrate superior academic ability, and be very involved in school activities to be eligible for selection. Even while they were still juniors, the new ECIVRES helped with end-of-the-year activities, such as commencement. The 87-88 ECIVRES helped raise morale on campus, and did many services for Hoover and the community. They are very special people Hoover can take pride in.

POWDER-PUFF

During Homecoming Week, there was a traditional Powder-Puff football game in which the Junior girls challenge the Senior girls. Junior and Senior mock cheerleaders entertained the crowd during the game. This year the defending champions, the Senior Class of '88, shut out the Juniors with a score of 6 - 0.

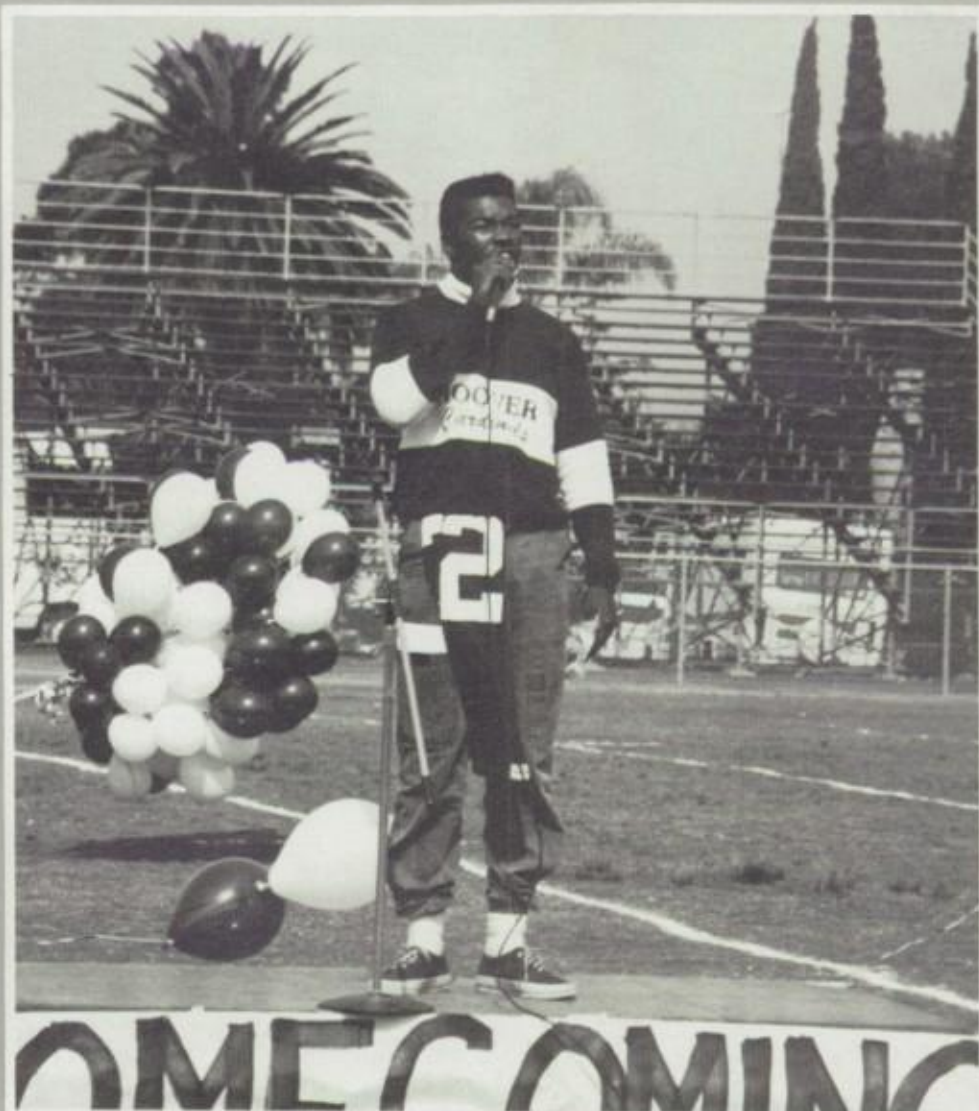

RALLY

Homecoming's Grand Marshall, the Famous Chicken, "Hailed Hoover High" once again at the all-school rally. The Senior Class and International Club both took first place in the class and club float competitions. In addition to winning the float competition, the Senior Class "sailed away" with another first place win in the spirit balloon competition. Mock court stunned the audience with their outrageous apparel. Not only did the Famous Chicken show up for the ceremonies; He actually talked, and led the school through the Alma Mater.

This year's Cheer generated enthusiasm throughout the school through their demonstration of school spirit. The squad set an example of unity and cooperation and represented the Cardinal red and white with dignity. They accepted failure with success and grew from their experiences to be the best they could be. Varsity Cheer '87-'88 had Cardinal pride.

HOMECOMING

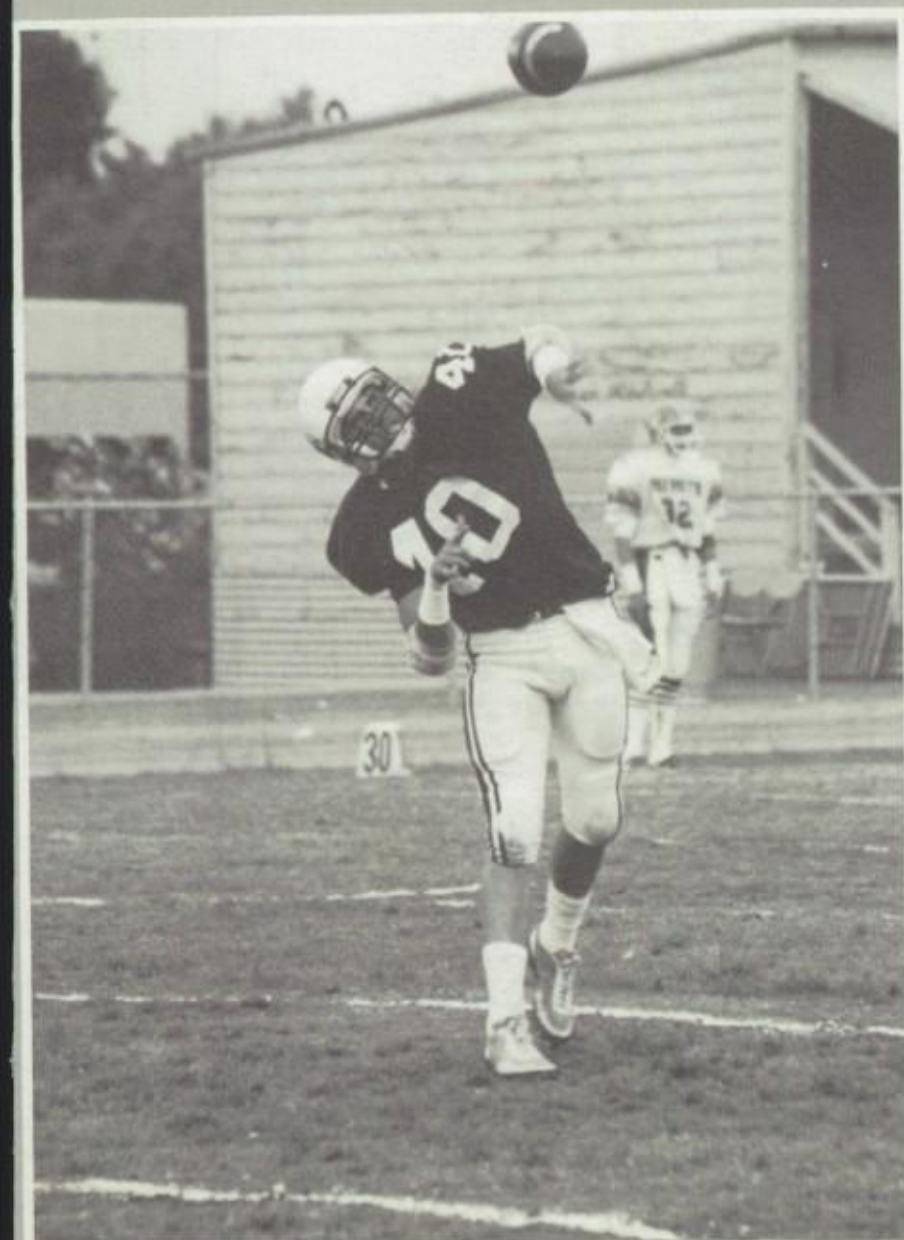

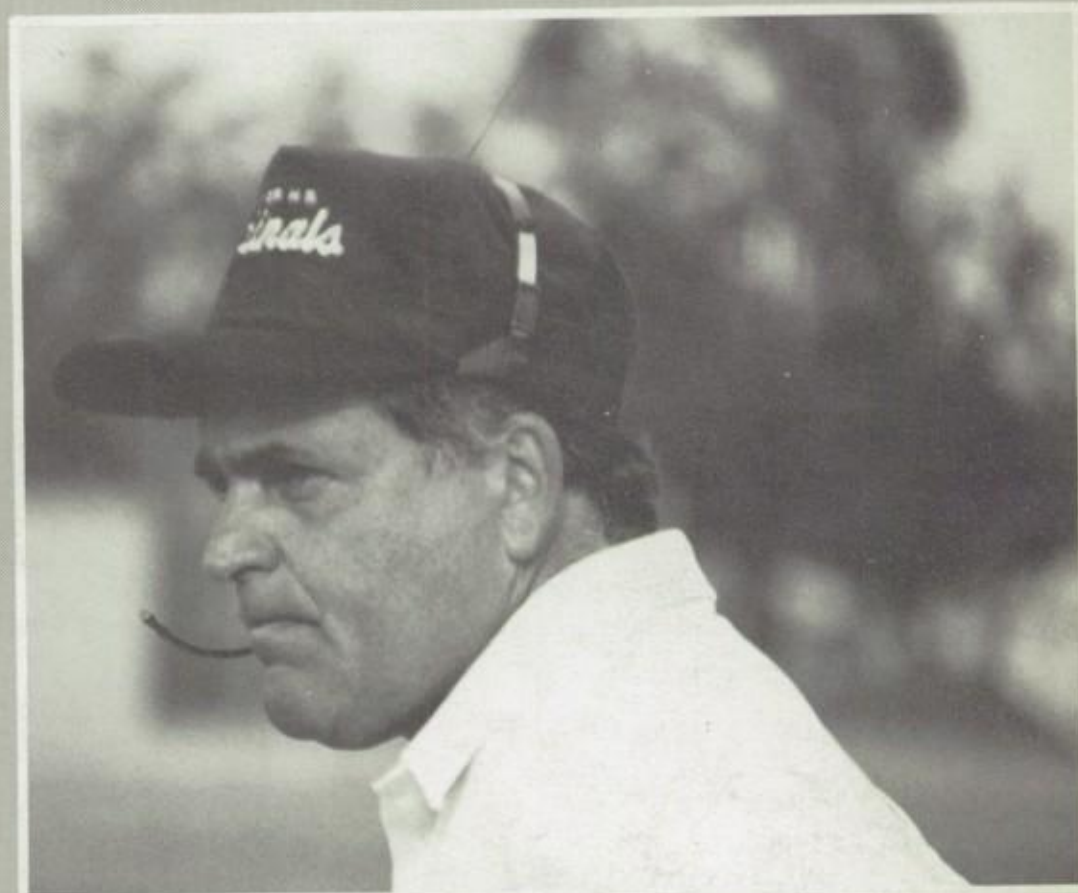

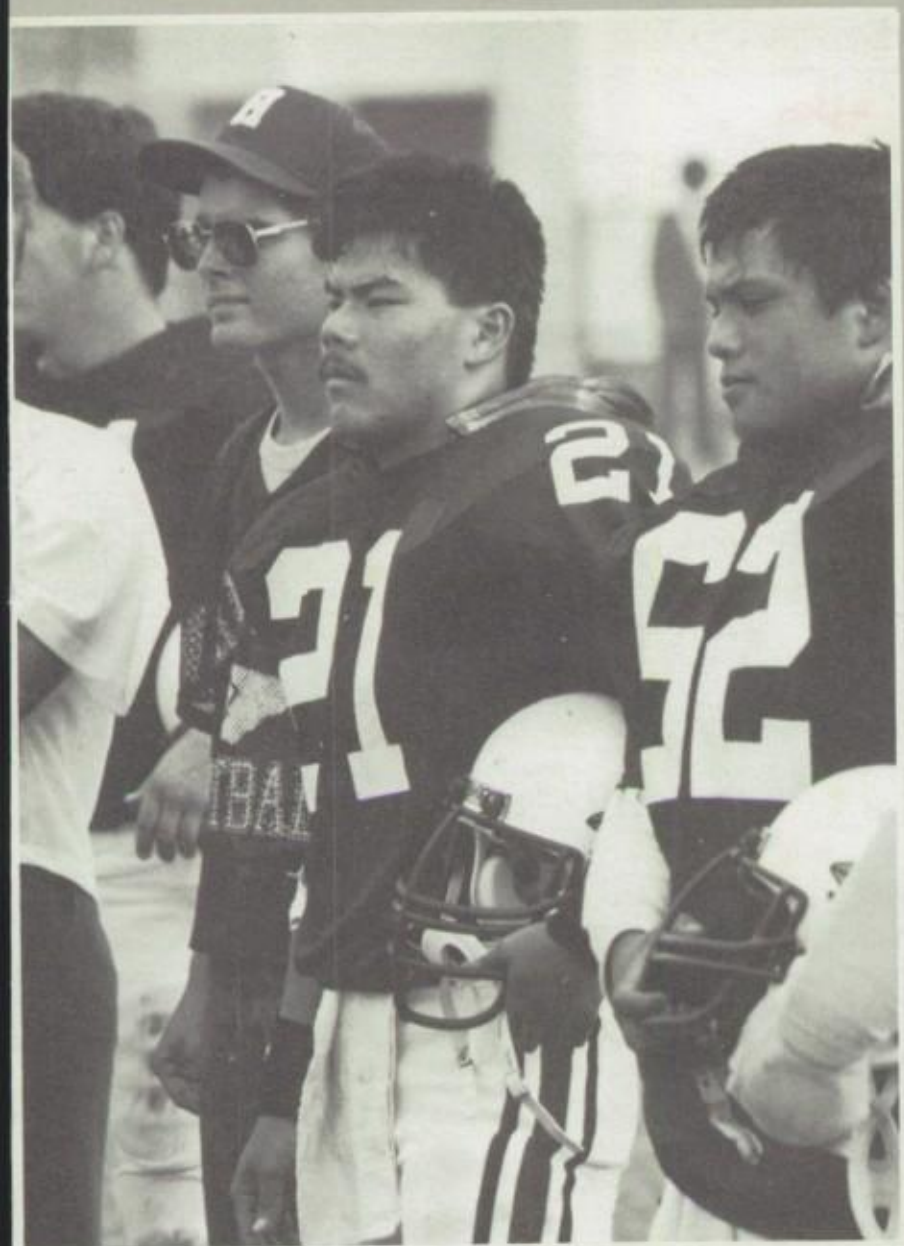

PARADE

In this year's Homecoming Parade, Hoover students, staff, and alumni showed their pride and spirit to the community during the parade's traditional route around the school. Clubs, classes, and clowns generated spirit throughout the viewing crowd.

Even though our football team took it on the chin this year, they showed what Homecoming was all about; they showed pride. With 12 seconds left, they sacked Christian's quarterback in the endzone for a safety. The final score of this thrilling game was 13-10, Christian's favor. Darrel Jamison caught a 40 yard catch that brought our team to the 30 yard line, which set up a Cardinal score.

Senior Friendships

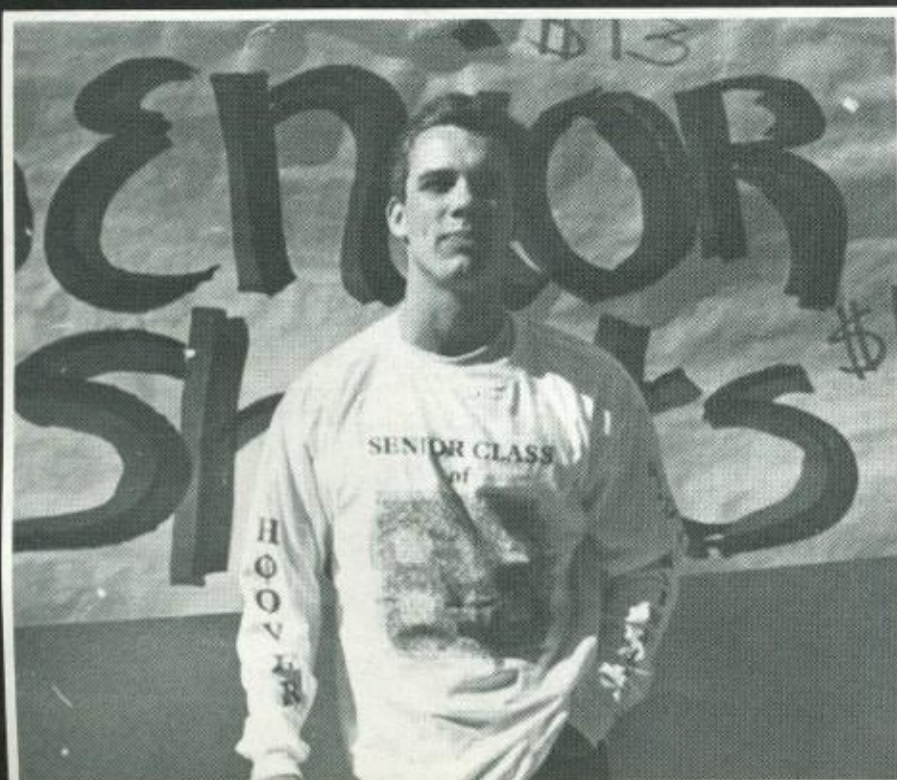

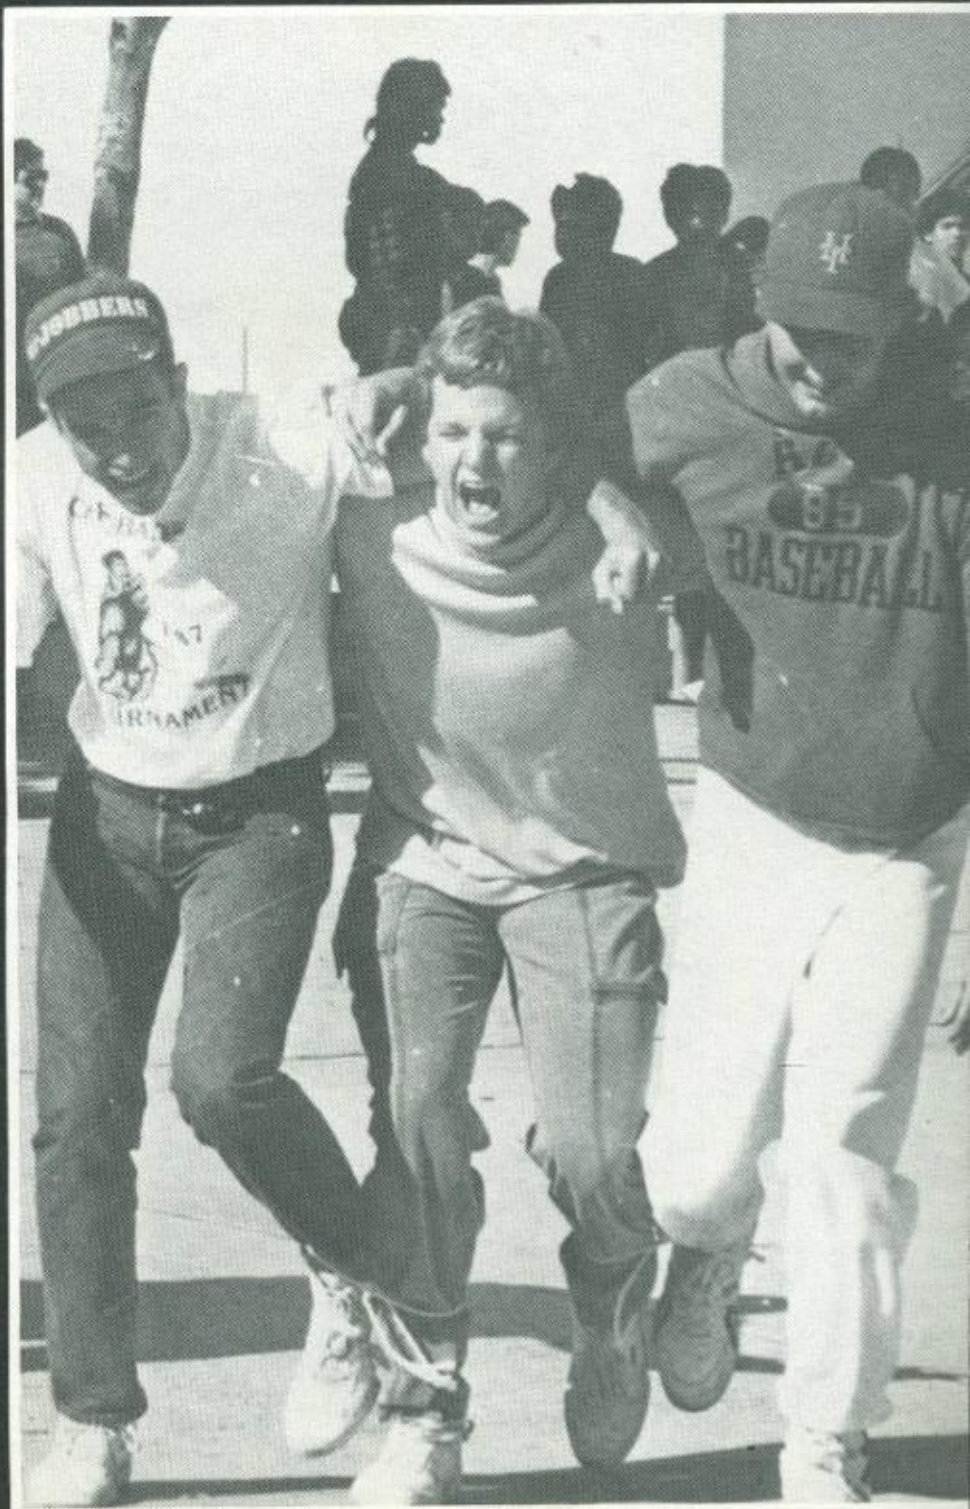

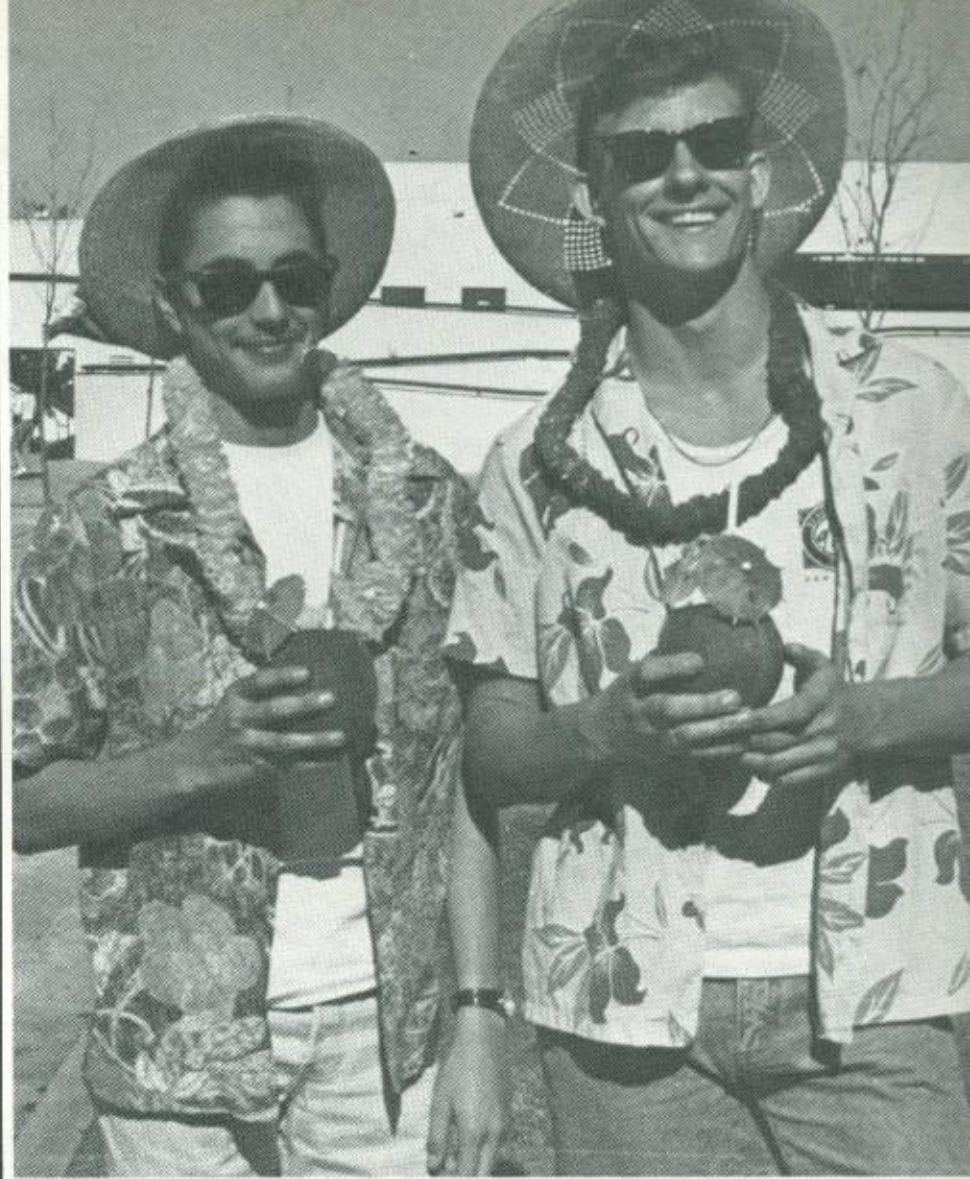

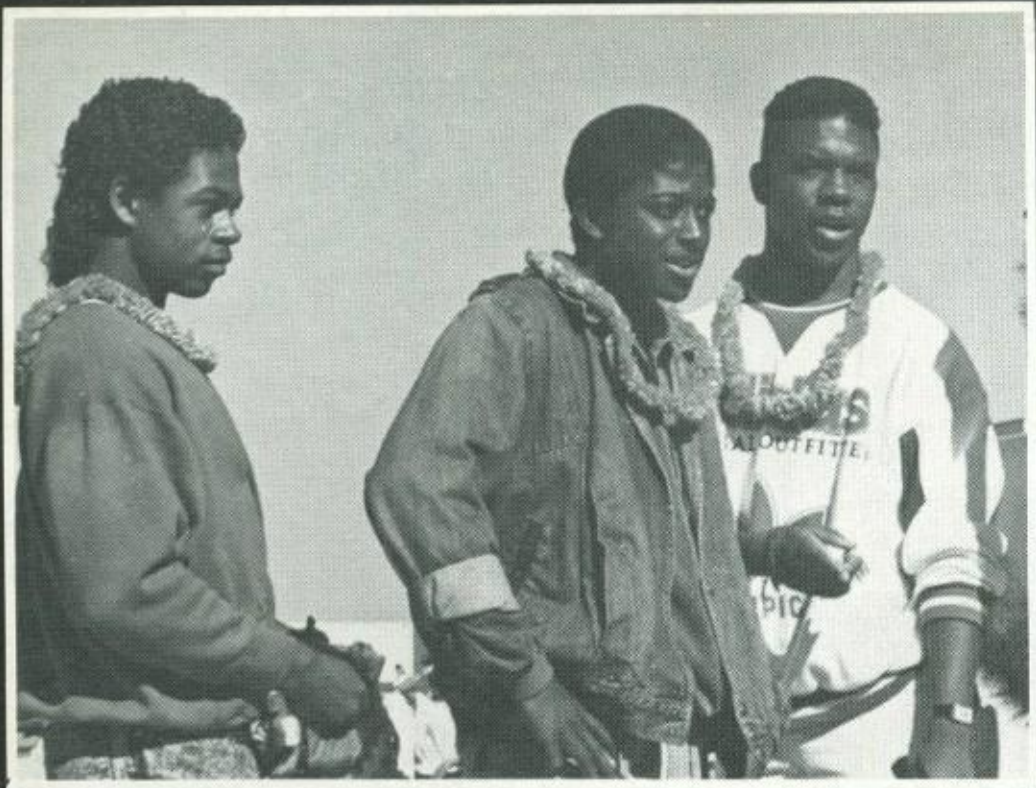

During your senior year, friends are very important. They share laughter, tears, secrets, and everlasting memories. With trust, understanding, honesty, loyalty, and love, friends seem to have a closer bond. As the years go by friends add new meaning to the word "life" because they make your life so much more important.

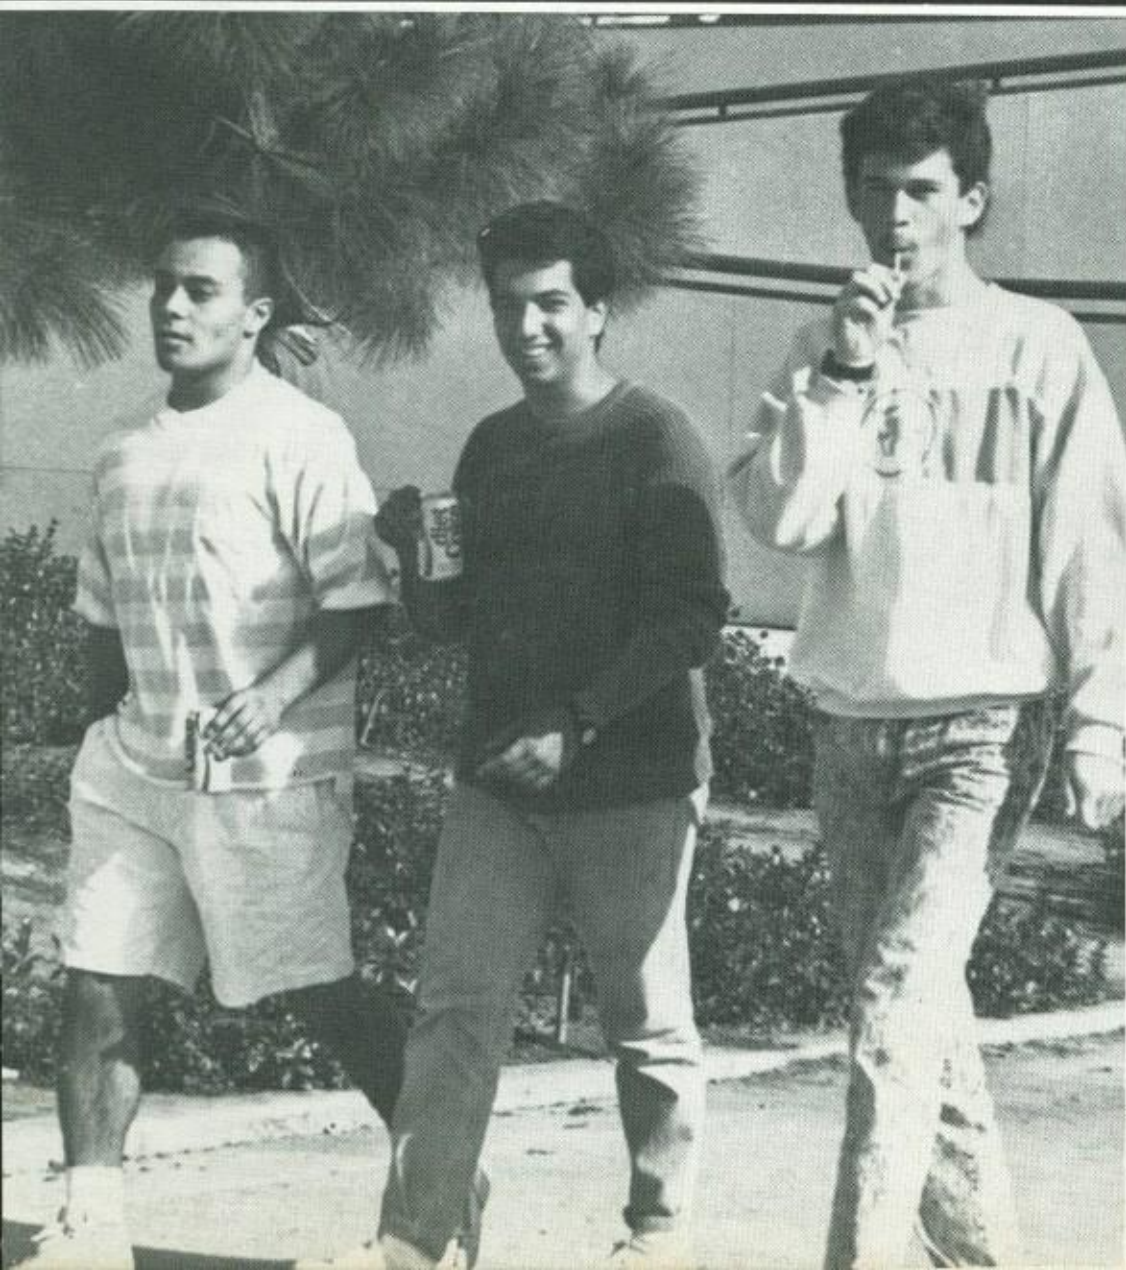

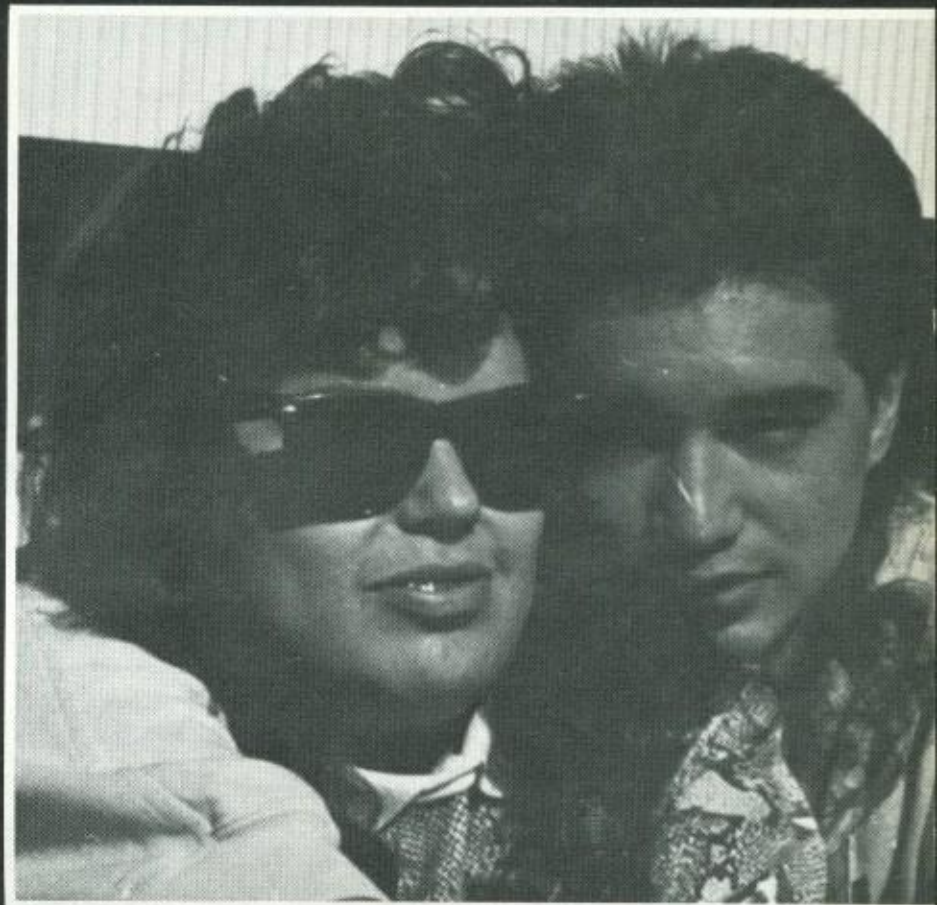

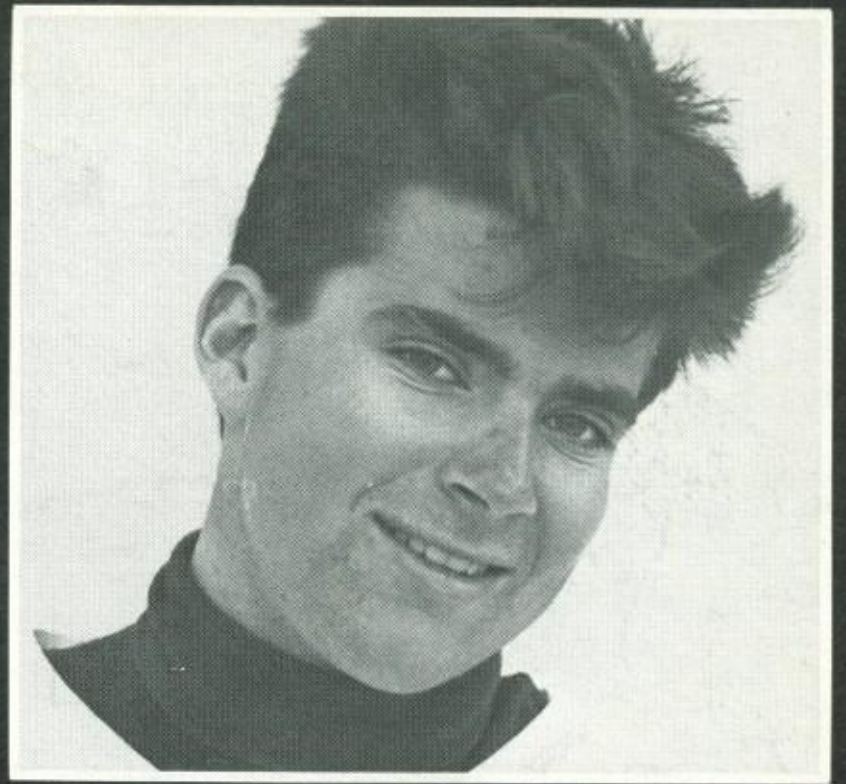

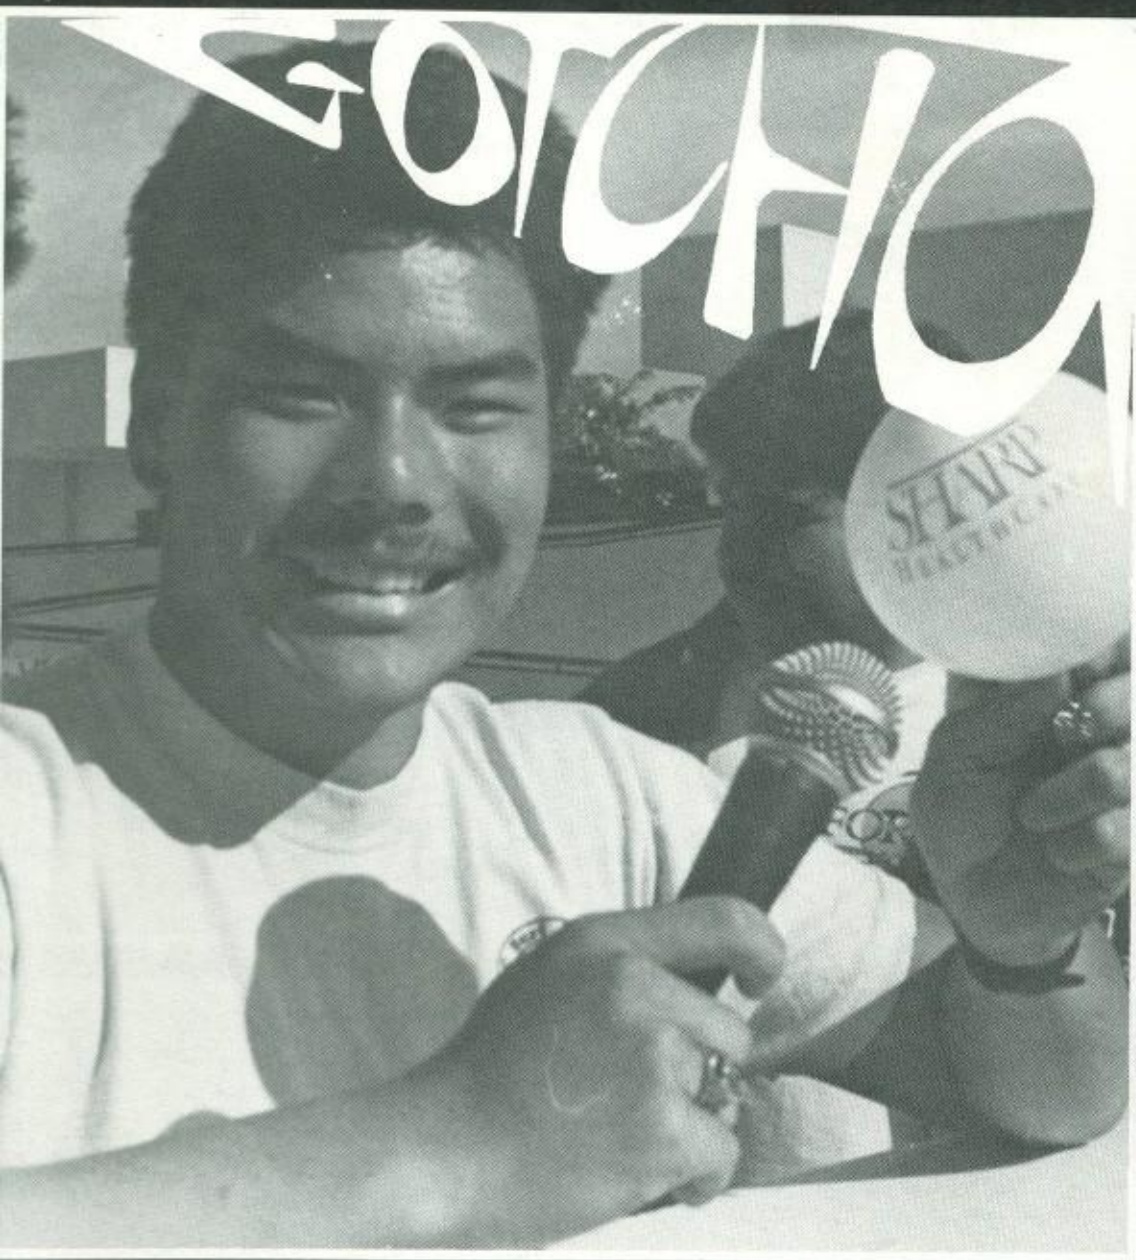

Friendship is an integral part of school life. The companions you have are loyal and trustworthy to each other. They form a special bond that is one of a kind.

Friends are unique in making your school life memorable. The relationships you have will stay in your heart forever.

The Class of '89

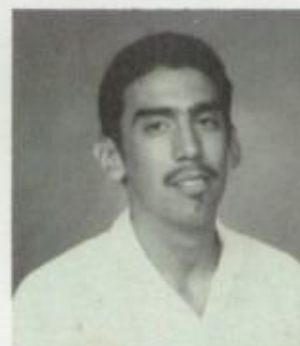

The Class of '89 began the year by setting many goals. The class cabinet believed in the promotion of school spirit and pride throughout the campus. They knew the only way this could be accomplished was by unification. By unifying the Junior class, they accomplished their goals and plan to have a successful senior year.

Brotherhood

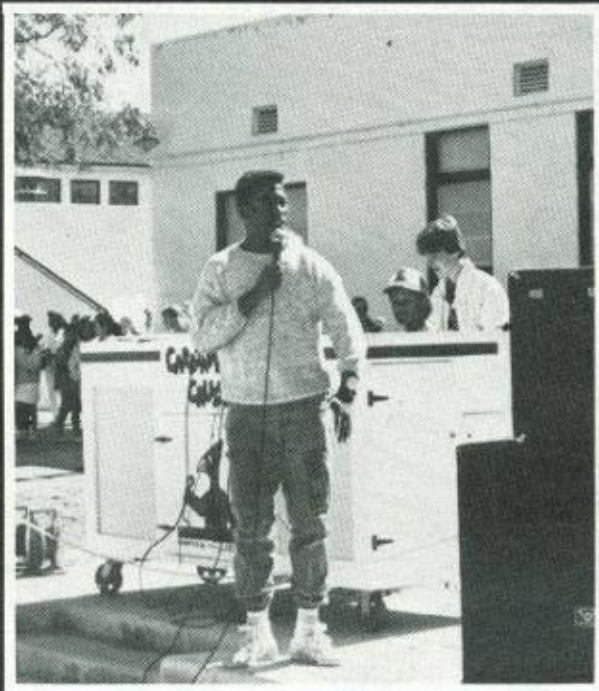

Brotherhood Week is a period set aside annually to promote and encourage better understanding of different cultures, religions, and races in the United States. The special event is held in February during George Washington's Birthday. Hoover High helped participate in this celebration along with colleges, civic organizations, and religious groups to enhance and create a true Melting Pot. Brotherhood Week was originated by Father Hugh McMenamin in 1934. The idea was to encourage people to renew their respect for other cultures and appreciate their tradition as well as themselves. For over 52 years, the United States people have kept Father Hugh McMenamin's beliefs alive, and have added that "all men are created equal."

Football*

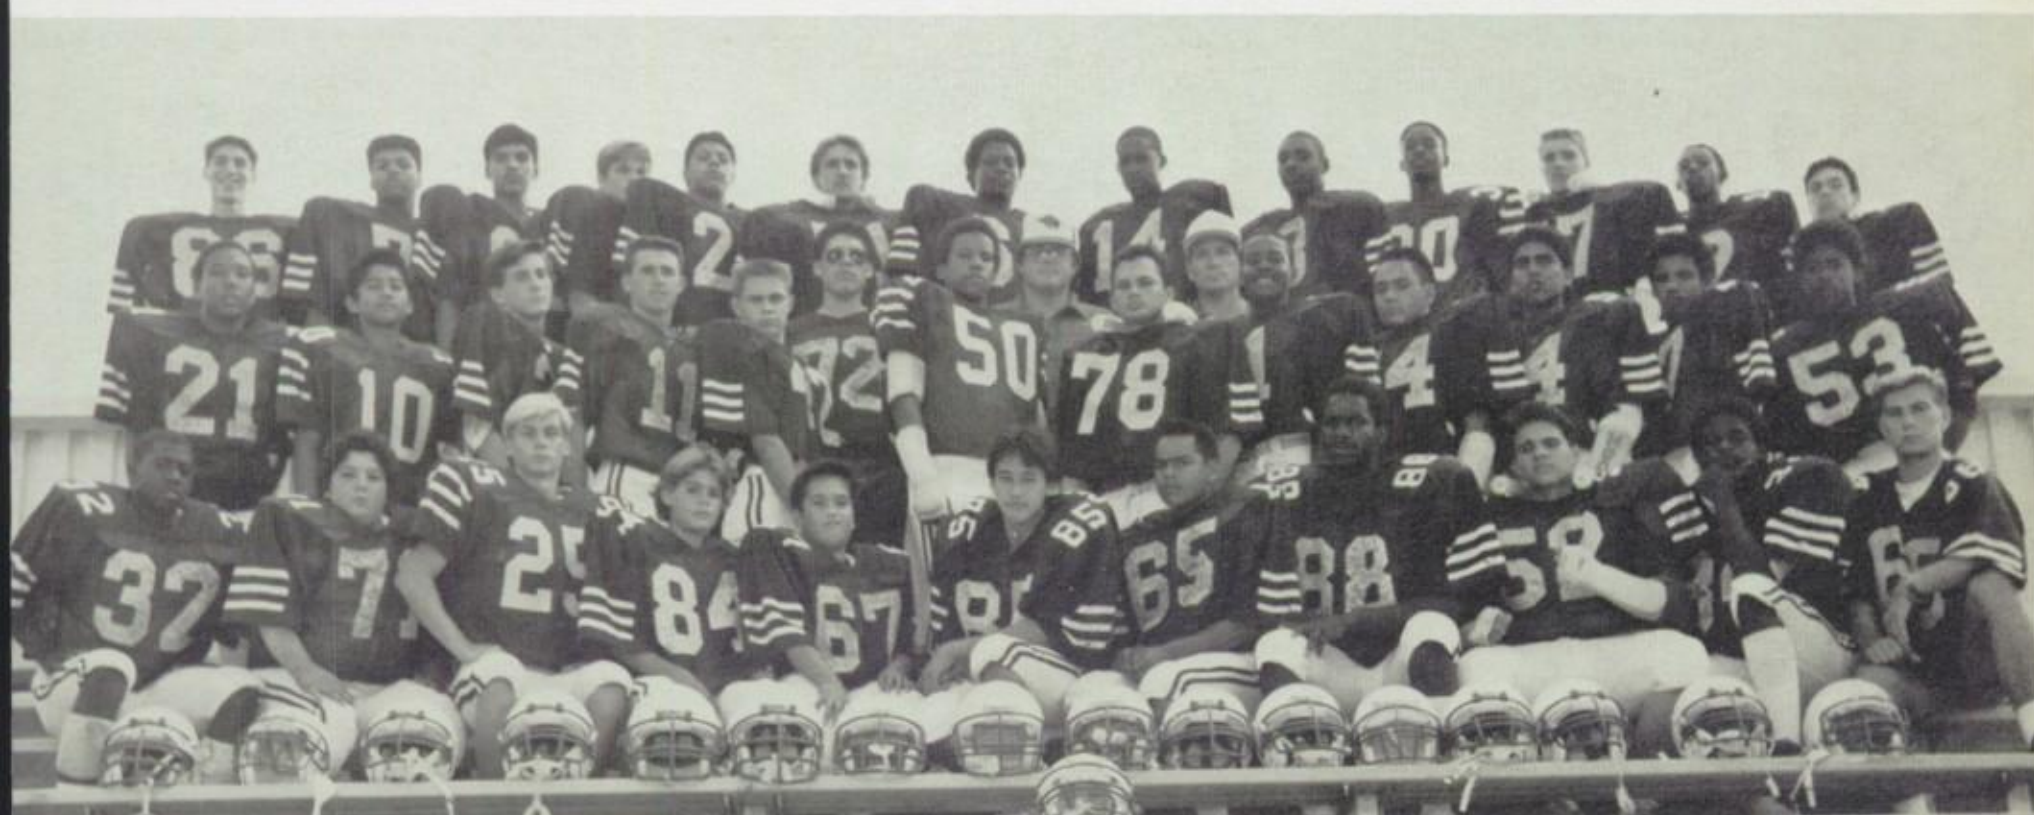

Although this football season wasn't as successful as in years past; in the coach's eye, it was a very exciting and profitable year. This year's team was a team with very experienced players. Most of them played both ways — offense and defense, and played equally well on both sides. It took a lot of hard work on their part to practice every day, Monday through Friday, of the football season. With many returning players, the Cardinal team was strong.

J.V. Football

This year's J.V. team had an excellent year. They had a combined attack of good passing game and a great running attack. Most of these players will be hoisted up to the Varsity team next season. J.V. is always the team for the youngsters to prove their ability.

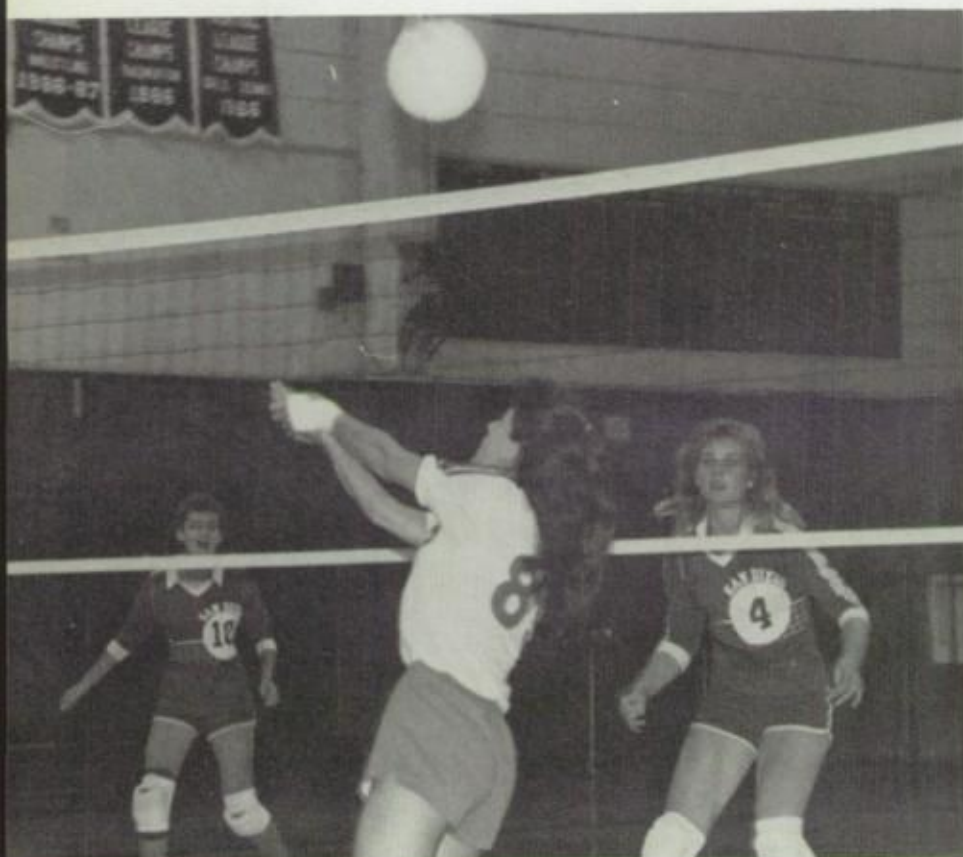

Top row — Ryan Parlaman, Steve Harris, Froylan Villianueva, Zack Leigh, Gerald Morris, Peter Bovenzi, Stanly Gardner, Charles Berotte, Brian White, Jason Crawford, Joe Vocal, Franklin Johnson, Josh Genshaw. Lisa and Cindy up for the Block!

The Cardinals finished a tough Varsity Volleyball season in a tie for 4th place. The Cardinals had only 3 returning players from last year and found themselves in a "building" year. With a lot of good hard practice and team effort they found themselves improving with each match. There were some excellent team and individual performances during the season. Lisa Thompson was voted most valuable player and was selected for the first team on the Central All League Team. Cindy Lewis and Mot Sayasane received Honorable mention on the All League Teams. Candace Meno, a sophomore was voted Most Inspirational. Although the team did not have a great year, they did have a good year and they are looking forward to a great year in 1988.

Hoover's Boys Cross Country had a great season. Each runner on the team worked daily to be the best he could be. The team continued to get better through the hard practices, Saturday Invitationals, and tough League Meets. The Running Redbirds were Central League Champs this year. Their record was six and zero, with victories over Morse, Saint Augustine, San Diego, Christian, Crawford, and Lincoln. They also came in fourth place in the C.I.F. finals. Way to go Cardinals!

Girls

This year's team was fairly inexperienced with one returning runner and a few track runners. Even though most people believe that Morley Field is only a run in the park, cross country is a very demanding sport. Although running doesn't take much skill, it still takes a lot of time, endurance, and effort. The runners usually practice by themselves. It requires hours of practice every day. Cross Country is not a very popular sport, but is one that definitely deserves recognition.

Fall Sports

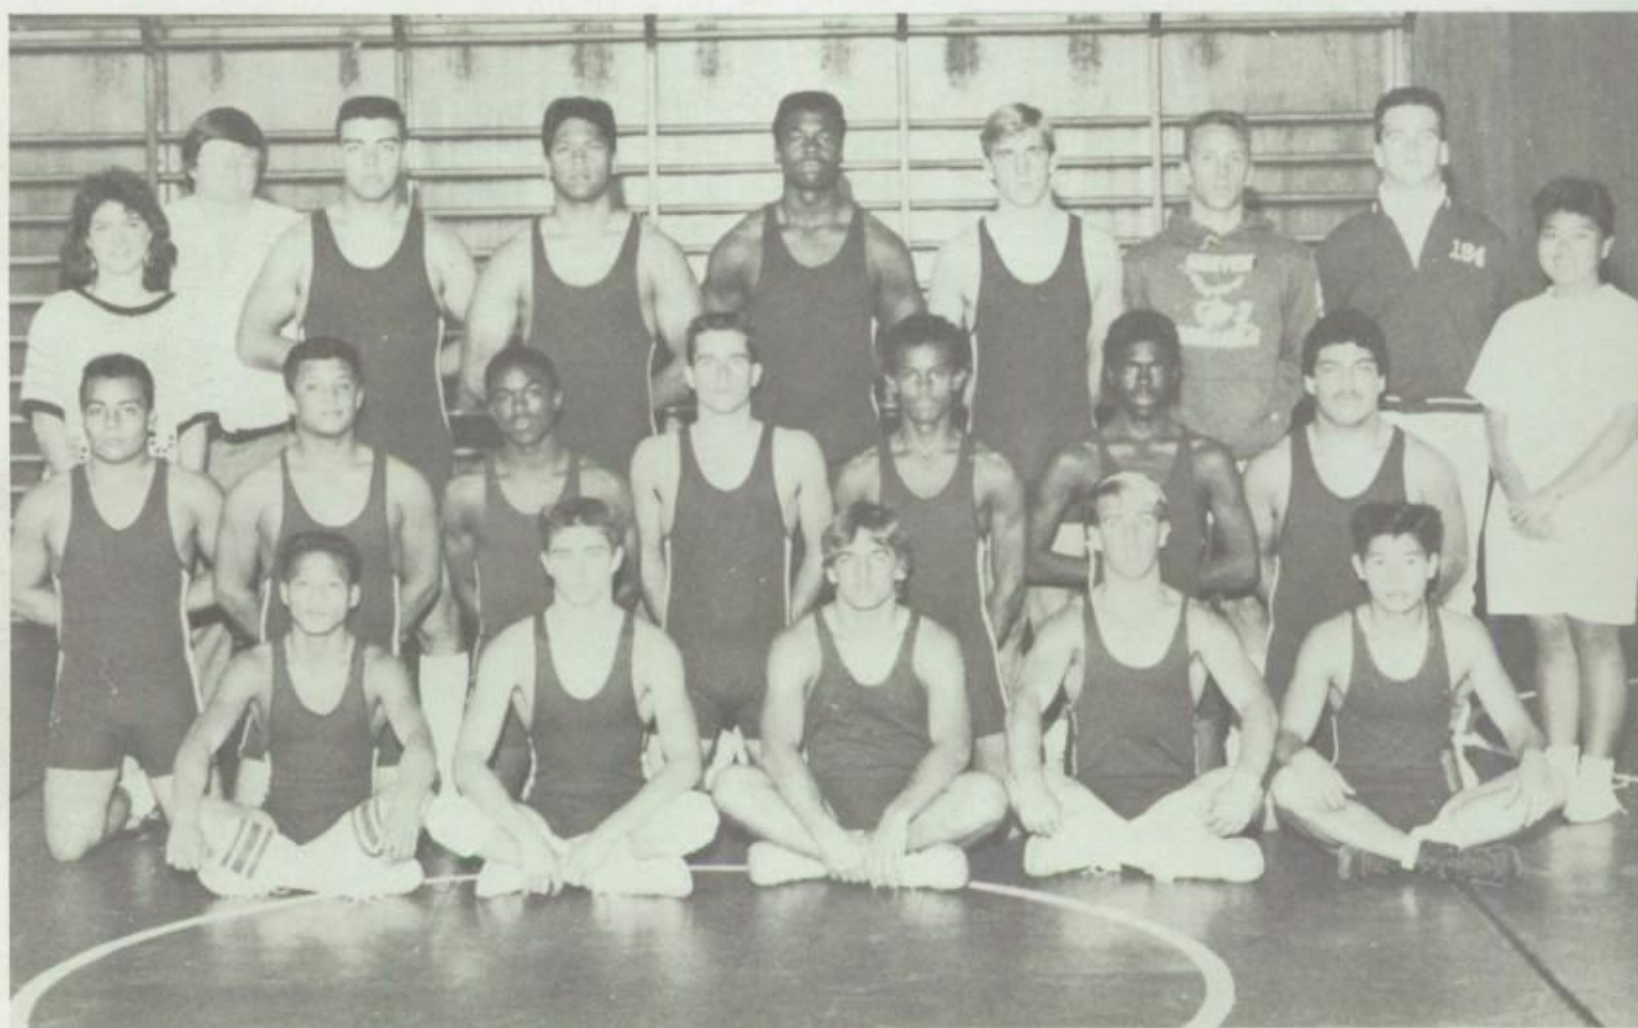

Once again the Tennis team has won Central league! Although most of the teams in Fall Sports are overshadowed by the Football team, the tennis team is slowly emerging out of the back of the other sports. Over the past several years the tennis team has all but ruled the central league. Starting out the tennis team only had 6 girls. It was very tough playing teams with more players and a deeper bench. Their winning attitude kept them in every match.

Girls J.V. Basketball

The team this year was young, strong, and fierce. It didn't take new Coach Diaz long to get the inexperienced players familiarized with the game. This years Girls Soccer was doomed from day 1. There was a grand total of 11 players. To play a game of Soccer you need at the very least 11 players. For 40 greuling minutes those 11 young ladies are out there working hard without a rest. As it turns out they got 3 more players later in the season which helped a little. With only 4 returning players this team did a great job staying in there each game.

They are the top contenders for a Central League title this year.

Continuing his tradition of excellence, the famous Dr. Dean, King of hypnosis, came to Hoover High, sponsored by the class of 88, to put willing subjects under his spell. Unknown talent was discovered such as Joe Piper's impersonation of Michael Jackson, and Micheal Wahlstrom's and Mario Lopez's performance of Swan Lake. Dr. Dean made his subjects laugh, cry, and even had them believing that everyone in the audience was nude. DeAnna Inai yelled at her economics teacher, Dr. Scott, to put her clothes on. Eric Berg was convinced that he was Peter Rabbit and hopped around the stage. All in all it was a great show! One that the audience and especially the participants won't soon forget.

Mrs. Tetzke — Head Counselor

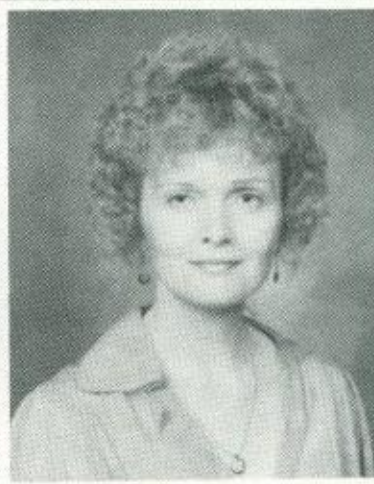

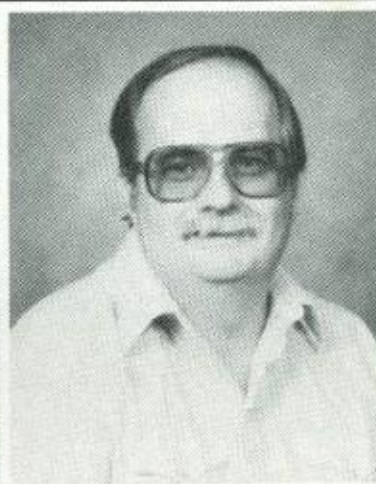

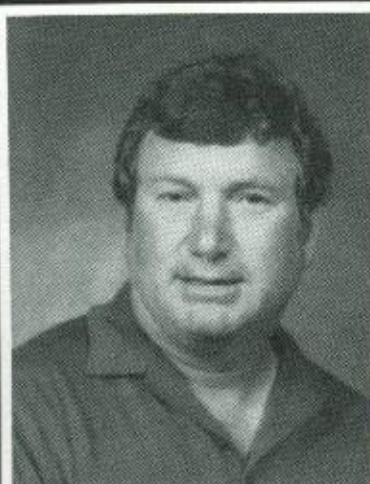

Hoover's counselors: Dr. Lewis, Mr. Richardson, Mrs. Beal, Mr. Krehbiel, and Mrs. Tetzke individually and collectively work with concern and enthusiasm to improve the programs that Hoover Students are taking. The counselors stress the importance of a good education and the need to take the future seriously. They are always ready and willing to provide the time and attention needed to adjust students schedules to be suited for their personal needs. The counselor's duties are many and at times very trying, but Hoover students would be at a loss without their encouragement and support. We thank all of you for your earnest endeavors in assisting us to grow in Hoover pride.

The 1987-88 yearbook staff wishes to take this opportunity to thank the following people for their hard work and dedication in making this yearbook possible.

Mr. Richard Curry — for not only being an outstanding yearbook advisor, but also a guidance counselor and most of all a friend which made our year a most memorable one.

Mr. Rod Williams — American Representative, for always being there when we were in desperate need of help.

Busco-Nestor Photography Studios — for taking a major portion of our pictures.

We especially thank John Valdez and Dale Swenson.

We would also like to thank each member of the Dias Cardinals Staff for being so hardworking and dedication.
